

Objective

To analyze customer retention and churn behavior using Excel.

Tools Used

Microsoft Excel

Findings

- Total Customers: 20
- Active Customers: 15
- Churned Customers: 5
- Retention Rate: 75%
- Churn Rate: 25%

Recommendations

- Improve customer engagement.
- Introduce loyalty rewards.
- Follow up with inactive customers.
- Provide better customer support.

Conclusion

The analysis shows that 75% of customers remain active, indicating good retention performance. Further efforts to reduce churn can improve long-term customer value.
